4. **Smart and multifunctional** thanks to a wide range of accessories
5. **Discreet**, only your message stands out.

Choose the **blue.family** most suited to your needs

curved:

blue.3x1 H 2375 x L 1110 mm

blue.3x2 H 2375 x L 1860 mm

blue.3x3 H 2375 x L 2520 mm

blue.3x4 H 2375 x L 3130 mm

Depth 230 mm

straight:

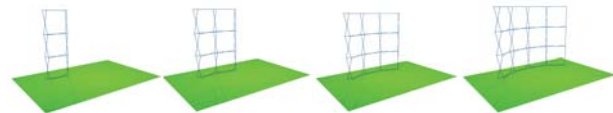

H 2375 x L 1310 mm

H 2375 x L 2090 mm

H 2375 x L 2870 mm

H 2375 x L 3650 mm

Depth 365 mm

(Also available as a table top or small version: height 1922 mm and straight or curved configuration, please contact us for further details)

blue.family applications

Adjustable angles

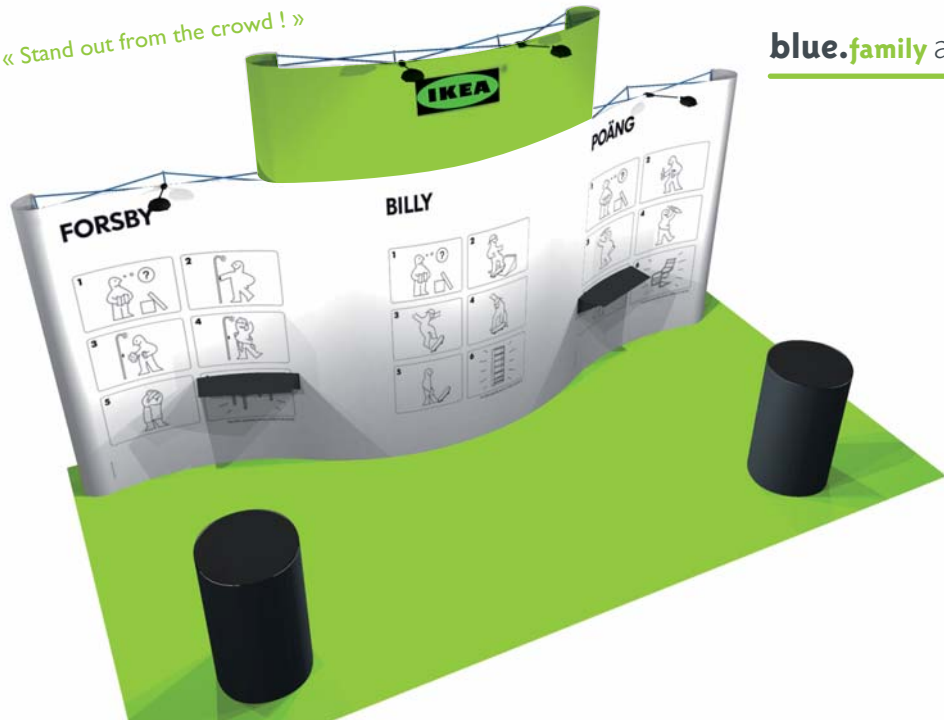

THE WORST JOB
IN THE WORLD

The **blue.family** can be adapted to fit the constraints of any space thanks to its modular structure.

Set up your graphic wall anyway you like:

Combine straight or curved elements, adjust the angles, add any signage and accessorize according to your needs...

« Stand out from the crowd ! »

blue.family applications

The **blue.family** is a reliable system which has been in constant development for the past ten years. It has a proven track record and is ideal for any kind of event : Road-shows, trade fairs, conferences, point of sale advertizing, show-rooms, museums, decor etc...

Bring your **blue.family** to life

« Unpack and let go !
the display automatically pops up »

The **blue.family**'s self- locking frame unfolds in seconds, no connectors required.
Simple and intuitive set up : thanks to magnetic tapes, the graphics position themselves automatically on the structure.
Hard-wearing, the joints are screwed and not glued. In case of breakage, parts can be replaced in seconds no special skills needed.

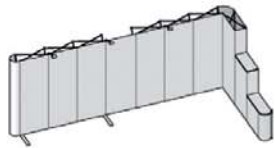

The **blue.family** in detail

- The magnetic bars upon which the soft panels are attached are easily fixed to endcaps
- Rigid panel option also available
- The aluminium magnetic bars allow a quick fitting of graphics and spotlights.

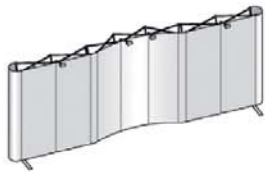

A few possible configuration ideas

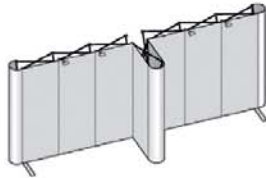

Feel free to be creative, the **blue.family** can be set up as follows

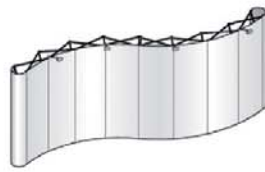

config. **A**

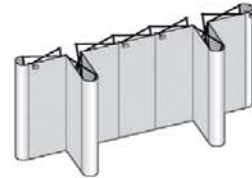

config. **B**

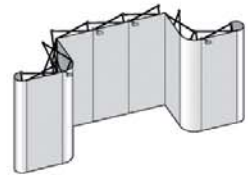

config. **C**

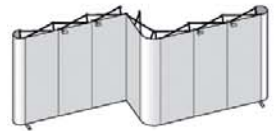

config. **D**

config. **E**

config. **F**

config. **G**

config. **H**

config. 4x **I**

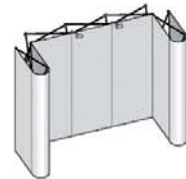

config. **J**

config. **K**

config. **L**

config. **M**

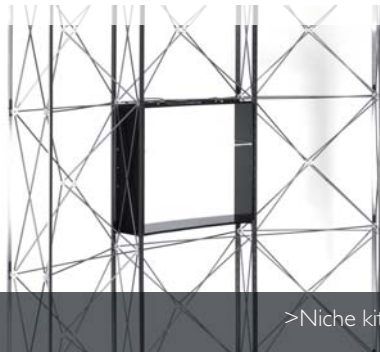

config. **N**

blue.family accessories

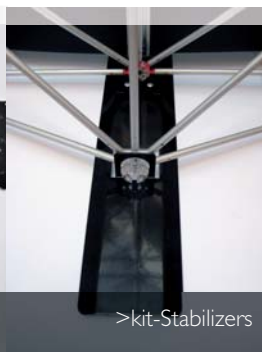

> Rololight backlighting

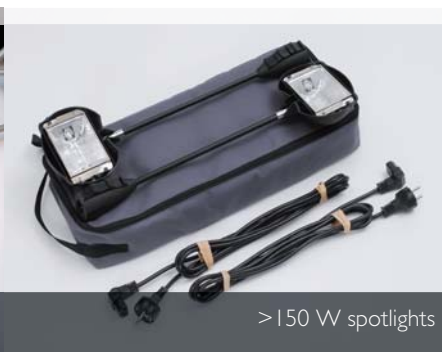

> Niche kit

> 150 W spotlights

Light up your **blue.family**

Add lighting to your stand using the rololight system with your **blue.family** !

Backlighting attracts attention by emphasizing contrasts and highlighting colours.

The ROLOLIGHT Corp. systems are both ultra light and hard-wearing making them a must have. Rolls up for easy transport.

Did you know that a back lit message has 45% more impact ?

All the ROLOLIGHT products use low energy fluorescent tubes that last up to 20 000 hours.

Light a complete stand with only one electric socket ! Think **GREEN** , think ROLOLIGHT !

Our commitments

Today, commitment to the environment has to be more than just an idea. It must be translated into practical measures ! That is why our Research and Development team strive to design products that are as ergonomic as possible whilst minimizing the quantity of materials used.

By working to reduce the weight of our products, duo. is also reducing the environmental impact of their transportation.

Optimizing the weight and volume of our products not only benefits the customer but also minimizes their environmental footprint throughout their lifecycle (less cardboard, less adhesive tape, less fuel, less storage space...)

Our products are manufactured using recycled aluminium and we work hand in hand with our suppliers to limit waste.

The duo.recycling programme reuses products which have reached the end of their lifecycle.

We now recommend covering our structures with fabrics made from recycled fibers and printed with dye sublimation inks (a printing process using water based inks, containing 80% water).

Today, duo.'s approach is based on a simple idea, offering irresistible eco-friendly products !
